

Results Analysis Package – RAP for HSC and SC results

The Results Analysis Package is a software package developed by the Office of the Board of Studies that can be used by schools to assist them to analyse their HSC and SC results. The Office of the Board of Studies licenses schools each year to use this software.

Schools will be able to access HSC and SC data for 2008 when results are released later this year.

The package will enable a school to obtain feedback on how its students performed in particular sections of the examinations compared with the statewide candidature of the course. Graphs and tables can be produced to analyse the information in a manner appropriate to the standards-based approach used for the HSC and SC.

The 2008 licence renewal fee for current users is \$93. For new users of the package the initial licence fee and software purchase totals \$342 including GST. The licence allows access to data for the SC from 1998 to 2008, and for the HSC from 2001 to 2008.

Schools can place an order by completing the order form below and faxing it to Customer Service at the Office of the Board of Studies. Any questions can be directed to Customer Service.

Order Form

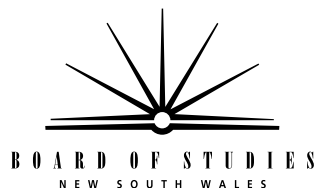

Please complete and return order to: Fax: (02) 9262 6270
