This document contains the NSW Education Standards Authority (NESA) requirements for assessing and reporting achievement in Continuers Preliminary and HSC courses in the above languages for the Higher School Certificate, and provides details of the HSC examination in those courses. From time to time changes are made to HSC assessment and examination requirements. Such changes will be made available through updates to this document. Please note that the version on the NESA website is always the current version.

Assessment in Stage 6

Assessment is the process of gathering information and making judgements about student achievement for a variety of purposes. In the Preliminary and HSC courses those purposes include:

- assisting student learning
- evaluating and improving teaching and learning programs
- providing evidence of satisfactory achievement and completion in the Preliminary course
- providing the Higher School Certificate results.

Assessment for Learning provides a useful approach for the delivery of the Languages Continuers Preliminary and HSC courses. It provides opportunities in the context of everyday class activities for students to demonstrate their learning.

The approach is most effective when students:

- are involved in setting learning goals
- know and understand standards and expectations about what is expected and the standards of work
- receive feedback that helps them understand the next steps in their learning and plan how to undertake the next steps.

Reporting achievement at the HSC

The Higher School Certificate credentials received by students are used by the NSW Education Standards Authority (NESA) to report both the internal and external measures of achievement. Higher School Certificate results in Languages Continuers comprise:

- an assessment mark derived from the mark submitted by the school and produced in accordance with the NESA requirements for the internal assessment program
- an examination mark derived from the HSC external examination
- an HSC mark, which is the average of the assessment mark and the examination mark
- a performance band, determined by the HSC mark.

Student performance in an HSC course is reported against standards on a course report. The course report contains a performance scale for the course describing levels (bands) of achievement, an HSC mark located on the performance scale, an assessment mark and an examination mark. The course report also shows, graphically, the statewide distribution of HSC marks of all students in the course.

The distribution of marks is determined by students’ performances against the standards and not scaled to a predetermined pattern of marks.

The use of both internal assessment and external examinations of student achievement allows measurements and observations to be made at several points and in different ways throughout the HSC course. Taken together, the external examination and internal assessment provide a valid and reliable assessment of the achievement of the knowledge, understanding and skills.
described for each course.

The NESA uses a standards-referenced approach to reporting student achievement in the Higher School Certificate. The standards in the HSC are:

- the knowledge, skills and understanding expected to be learnt by students – the syllabus standards
- the levels of achievement of the knowledge, skills and understanding – the performance standards.

Both the syllabus standards and the performance standards are based on the aims, objectives, outcomes and content of the course. Together they specify what is to be learnt and how well it is to be achieved. Teacher understanding of the standards comes from the aims, objectives, outcomes and content in the syllabus together with:

- the performance descriptions that summarise the different levels of performance
- HSC examination papers and marking guidelines
- samples of students’ achievement, collected in the standards packages and published on the NESA Assessment Resource Centre website.

Internal assessment

This section should be read in conjunction with advice on internal assessment in the NESA Assessment Certification and Examination (ACE) website.

Preliminary course

The suggested components and weightings are designed to give guidance for the school’s assessment of student achievement in the Preliminary course. They may be varied to suit school needs.

HSC course

NESA requires schools to submit an assessment mark for each HSC candidate in a Languages Continuers course. The internal assessment mark submitted by the school provides a summation of each student’s achievements measured at several points throughout the course. The marks submitted for each course group at a school should reflect the rank order of students, and must be on a scale sufficiently wide to reflect adequately the relative differences in student performances.

Internal assessment provides a measure of a student’s achievement based on a wider range of syllabus content and outcomes than may be covered by the external examination alone. The assessment components and weightings to be applied ensure a common focus for internal assessment in the course across schools, while allowing for flexibility in the design of tasks. A variety of types of task should be used to give students the opportunity to demonstrate outcomes in different ways and to improve the validity and reliability of the assessment.

The standards-referenced approach to assessment for the HSC involves schools ensuring that:
assessment tasks reflect the weightings and components specified in this document
- tasks are designed to focus on objectives and outcomes
- the types of assessment task are appropriate for the outcomes being assessed
- students are given the opportunity to demonstrate their level of achievement of the outcomes in a range of different task types
- the assessment criteria for each task are such that higher marks are gained by demonstration of better achievement in relation to the syllabus outcomes
- students know the assessment criteria before they begin a task
- marks earned on individual tasks are expressed on a scale sufficiently wide to reflect the relative differences in student performances.

Students should receive meaningful feedback about what they are able to do, and what they need to do in order to improve their level of performance.

The HSC examination

The external HSC examination provides a measure of student achievement in a range of syllabus outcomes that can be reliably measured in an examination setting. The external examination and its marking relate to syllabus standards by:

- providing clear links to syllabus outcomes
- enabling students to demonstrate the levels of achievement outlined in the course performance scale
- applying marking guidelines based on criteria that relate to the quality of the response
- aligning performance in the examination each year to the standards established for the course.

NESA requirements for the HSC internal assessment mark

NESA requires that the assessment tasks used to determine the HSC internal assessment mark must comply with the components and weightings specified. The collection of information for the HSC internal assessment mark must not begin before the completion of the Preliminary course.

Schools are required to develop an HSC internal assessment program that:

- specifies the various assessment tasks and the weightings allocated to each task
- provides a schedule of the tasks designed for the whole course.

Note that school-based assessment marks submitted to NESA must NOT include:

- measures of objectives and outcomes that address values and attitudes. (However, as these objectives are important elements of any course, schools may decide to report on them separately to students and parents, perhaps using some form of descriptive statements.)
- measures that reflect student conduct.

See the NESA ACE website for further information.
Assessment components and weightings

100

Teachers may use their discretion in determining the manner in which they allocate tasks within the course content. NESA considers that 3 to 5 assessment tasks is sufficient.
Languages Continuers HSC examination specifications

The examination will consist of a written paper worth 80 marks and an oral examination worth 20 marks.

**Written Paper (80 marks)**

Time allowed: 3 hours including 10 minutes reading time.

The stimulus texts and the writing tasks will relate to the topics as listed in the syllabus.

Monolingual and/or bilingual print dictionaries may be used.

The paper will consist of three sections.

**Section I – Listening and Responding (25 marks)**

- Candidates will be required to demonstrate their understanding of spoken text.
- There will be approximately eight questions phrased in English relating to Objective 3.
- Each question will be based on an aural text in [Language].
- The texts will be read twice. There will be a pause between the readings and a longer pause after the second reading to allow candidates to answer the question.
- The texts will vary in length ranging from approximately 35 seconds to approximately 80 seconds.
- The total time for one reading of all the texts will be approximately 8 minutes.
- The texts will include a range of text types.
- There will be a range of question types such as short-answer questions that require a response in English or the completion of a table, list or form in [Language] or English, and objective response questions with distractors in [Language] or English.
- Questions may contain parts.
- There will be approximately 9 items.
- There will be at least one item worth from 5 to 6 marks.

**Section II – Reading and Responding (40 marks)**

This section will consist of two parts.

**Part A (25 marks)**

- Candidates will be required to demonstrate their understanding of written text.
- There will be two questions phrased in English relating to Objective 3 requiring a response in English.
- Each question will be based on a written text in [Language].
- The total length of the two texts will be approximately:
  - 600 words in Arabic, French, German, Indonesian, Italian, Modern Greek and Spanish
  - 750 characters in Chinese
  - 1200 ji in Japanese
  - 1250 ja in Korean.
Questions will contain short-answer parts and may contain objective response parts.
There will be approximately eight parts.
There will be at least one part worth from 5 to 7 marks.

**Part B (15 marks)**
- Candidates will be required to demonstrate their understanding of written text by writing an extended response in [Language].
- There will be one extended response question phrased in English relating to Objective 1 and 2.
- The question will be based on a written text of approximately:
  - 150 words in Arabic, French, German, Indonesian, Italian, Modern Greek and Spanish
  - 200 characters in Chinese
  - 300 ji in Japanese
  - 375 ja in Korean.
- The question will specify the audience, purpose and context of the response.
- Candidates will be required to respond to questions, statements, comments and/or specific information in the text.
- The expected length of response will be approximately:
  - 200 words in Arabic, French, German, Indonesian, Italian, Modern Greek and Spanish
  - 250 characters in Chinese
  - 400 ji in Japanese
  - 500 ja in Korean.

**Section III – Writing in [Language] (15 marks)**
- There will be two questions relating to Objective 2 phrased in English requiring a response in [Language].
- Each question will specify the audience, purpose and context of the response.
- The first question will be worth 5 marks and candidates will be required to write an informative or descriptive response of approximately:
  - 75 words in Arabic, French, German, Indonesian, Italian, Modern Greek and Spanish
  - 90 characters in Chinese
  - 150 ji in Japanese
  - 180 ja in Korean.
- The second question will be worth 10 marks and will have two extended response alternatives, each requiring the same text type.
- Candidates will be required to answer one alternative and write an evaluative, persuasive or reflective response of approximately:
  - 200 words in Arabic, French, German, Indonesian, Italian, Modern Greek and Spanish
  - 250 characters in Chinese
  - 400 ji in Japanese
  - 500 ja in Korean.
Oral Examination  (20 marks)

Time allowed: approximately 10 minutes.

The oral examination will consist of a conversation between the candidate and the examiner. In the oral examination, the candidate will respond to the examiner’s questions on the prescribed syllabus topics as they relate to the candidate’s personal world.
