Introduction to the Primary Industries Curriculum Framework

The Primary Industries Curriculum Framework and Certificate III in Rural Operations

Status of units of competency for the Primary Industries HSC courses and Certificate III in Rural Operations

Minimum requirements for Certificate III in Rural Operations (AHC32810)

Primary Industries – Certificate III in Rural Operations (AHC32810)

The Primary Industries Curriculum Framework includes the following documentation:

- the syllabus
- associated documents
- support materials.

All of the Framework documentation is available on the Board’s website at www.boardofstudies.nsw.edu.au/syllabus_hsc/primary-industries.html.

This document, *Primary Industries – Certificate III in Rural Operations (AHC32810)*, should be read in conjunction with the [Primary Industries Curriculum Framework Stage 6 Syllabus](#).

Introduction to the Primary Industries Curriculum Framework

The Primary Industries Curriculum Framework is a Board Developed HSC syllabus based on the national *Agriculture, Horticulture and Conservation and Land Management Training Package (AHC10)* and includes pathways to *Certificate III in Rural Operations (AHC32810)*.

The Primary Industries Curriculum Framework contains the following HSC VET courses (detailed in [Section 2 of the Syllabus](#)):

- Primary Industries (120 indicative hours)
- Primary Industries (240 indicative hours)
- Primary Industries Specialisation Study (60 or 120 or 180 or 240 indicative hours).

HSC VET courses are dual accredited. Students can gain credit towards:

- the NSW Higher School Certificate (HSC)
- an AQF VET qualification – eg Certificate III in Rural Operations.

As a result of the dual accreditation, HSC VET courses are governed by two sets of rules:

- HSC unit credit requirements determined by:
 - HSC course requirements (detailed in [Section 2 of the Syllabus](#))
 - the requirements for satisfactory course completion – outlined in the Board of Studies [Assessment, Certification and Examination \(ACE\) Manual](#)
- AQF VET qualification requirements specified in:
 - the qualification packaging rules for Certificate III in Rural Operations – defined in the AHC10 Training Package (detailed on pp 19–21 of this document)
 - RTO policies.

It is important to note that the rules and structure of HSC VET courses are not identical to the qualification packaging rules.

HSC VET courses can only be delivered by a Registered Training Organisation (RTO) who must:

- deliver the HSC VET course in accordance with Board of Studies' requirements
- meet the requirements of the VET Quality Framework [formerly referred to as the Australian Quality Training Framework (AQTF)]
- meet the Training Package requirements.

The Primary Industries Curriculum Framework and Certificate III in Rural Operations

The AHC10 Training Package qualification packaging rules for *Certificate III in Rural Operations (AHC32810)* require the achievement of:

- 2 core units of competency
- plus 14 elective units of competency.

(Refer to pp 19–21 of this document for further detail.)

To achieve *Certificate III in Rural Operations (AHC32810)* as a part of the HSC, students will generally complete the following HSC VET courses from the Primary Industries Curriculum Framework:

- Primary Industries (240 indicative hours) – 4 HSC credit units
- Primary Industries Specialisation Study (120 indicative hours) – 2 HSC credit units.

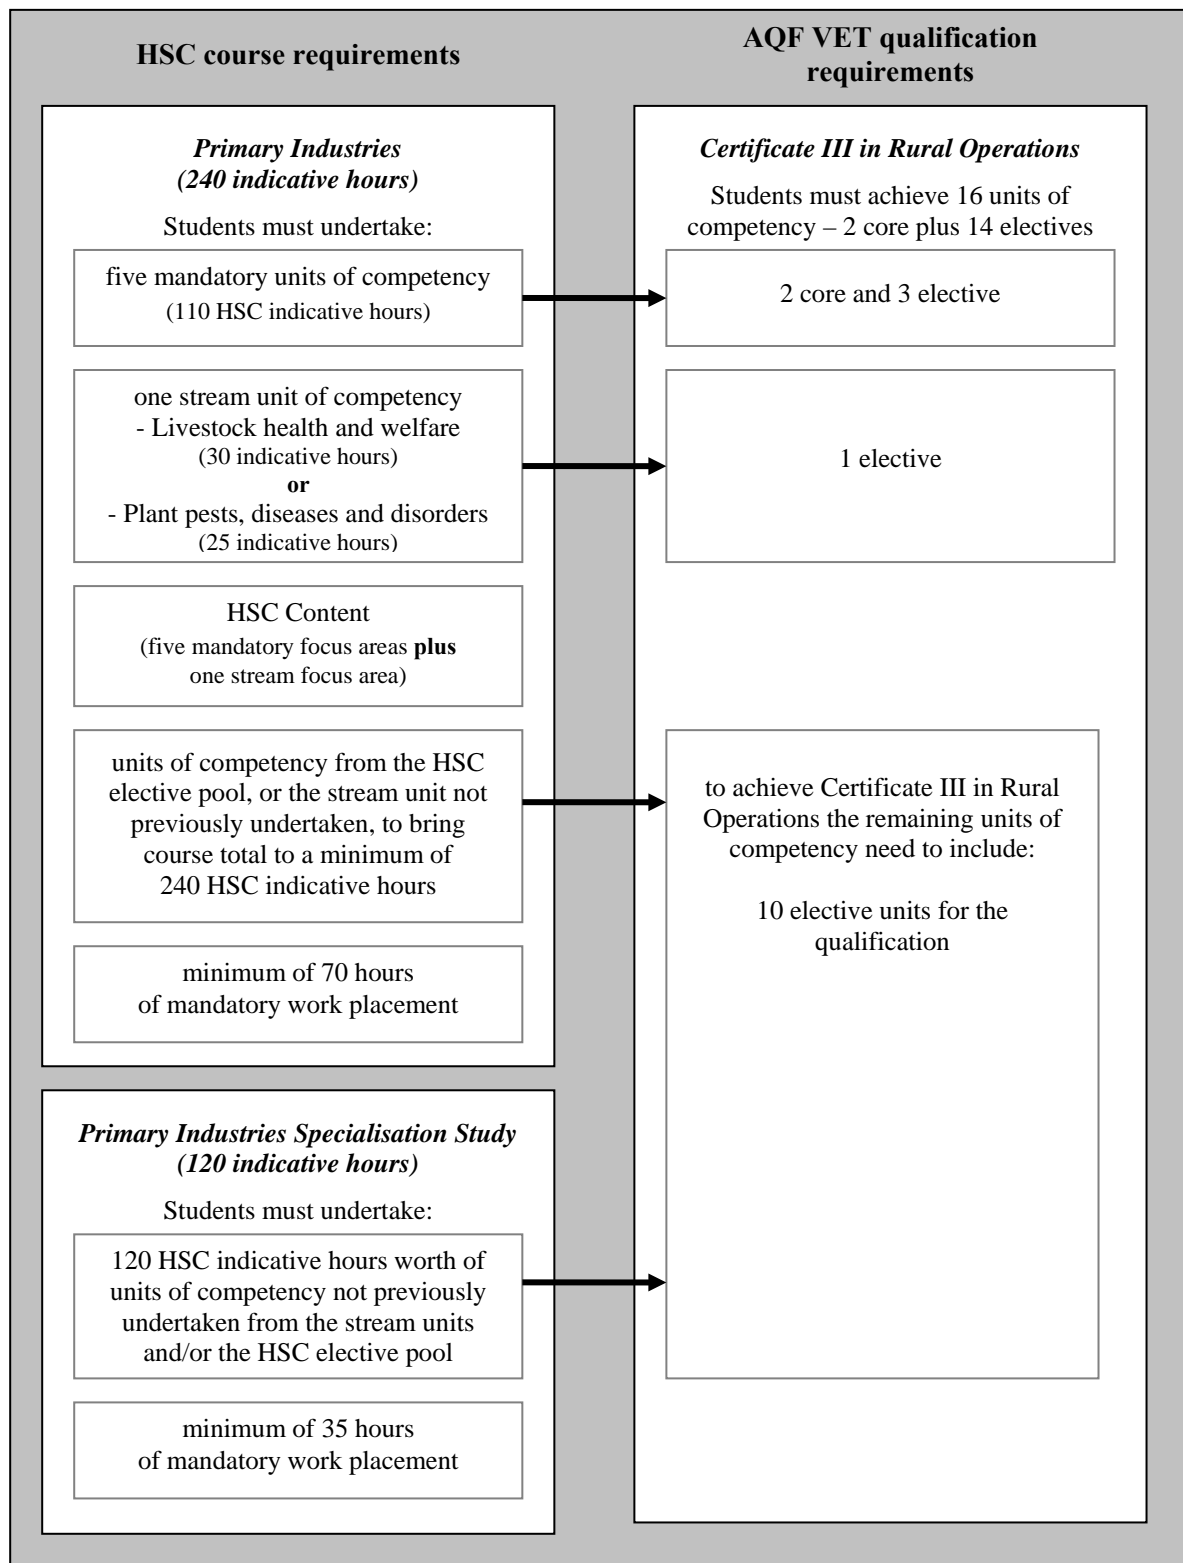

For students who have undertaken a Certificate II qualification as a part of the Primary Industries (240 indicative hours) course, and are undertaking a Certificate III qualification pathway in the Primary Industries Specialisation Study, there are different course requirements. RTOs must refer to the associated document *Pathways from Certificate II to Certificate III in Primary Industries* for further information.

To be eligible for the award of the HSC, students must satisfactorily complete a pattern of study that includes 22 HSC credit units (refer to the [Assessment, Certification and Examination \(ACE\) Manual](#) for further detail).

Students undertaking *Certificate III in Rural Operations (AHC32810)* through the Primary Industries (240 indicative hours) course plus the Primary Industries Specialisation Study (120 indicative hours) will be eligible for 6 HSC credit units towards the 22 HSC credit units required for the award of their HSC.

Primary Industries course requirements for Certificate III in Rural Operations

Refer to pp 9–18 of this document and [Section 2 of the Syllabus](#) for further detail.

Work placement

Work placement is a mandatory HSC VET course requirement with minimum hours assigned to each HSC VET course. Non-completion of work placement means the student has not met the HSC VET course requirements and cannot count the HSC credit units for the course towards the award of their HSC. They would still be credentialled for the AQF VET qualification outcome.

The minimum work placement requirement for *Certificate III in Rural Operations (AHC32810)* is:

- Primary Industries (240 indicative hours) – 70 hours
- Primary Industries Specialisation Study (120 indicative hours) – 35 hours.

Work placement is to be undertaken in an appropriate primary industries work environment.

Refer to the [Work Placement in Primary Industries](#) document for industry-specific advice regarding work placement in primary industries.

HSC Content

The HSC Content for this Framework is organised into focus areas. Each focus area prescribes the scope of learning for the HSC. This is drawn from the associated units of competency (outlined in Table 1 on the next page).

Students undertaking the Primary Industries (240 indicative hours) course must address:

- all of the mandatory focus areas:
 - Chemicals
 - Safety
 - Sustainability
 - Weather
 - Working in the industry
- one stream focus area:
 - Livestock health and welfare
 - or**
 - Plant pests, diseases and disorders.

The content description for each focus area is detailed in [Section 3 of the Syllabus](#).

The HSC examination in Primary Industries is based on the HSC Content and employability skills for the Certificate II qualifications in this Framework (refer to [Section 4 of the Syllabus](#)).

Table 1 Focus areas and associated units of competency for Certificate III in Rural Operations (AHC32810)

	Associated units of competency	
Focus area	Unit code	Unit title
Mandatory		
Chemicals	AHCCHM303A	Prepare and apply chemicals
Safety	AHCOHS301A	Contribute to OHS processes
Sustainability	AHCWRK204A	Work effectively in the industry
Weather	AHCWRK302A	Monitor weather conditions
Working in the industry	AHCWRK313A	Implement and monitor environmentally sustainable work practices
Stream		
Livestock health and welfare	AHCLSK309A	Implement animal health control programs
or		
Plant pests, diseases and disorders	AHCPMG302A	Control plant pests, diseases and disorders

HSC examination

The Primary Industries Curriculum Framework includes an HSC examination which provides the opportunity for students to have their HSC mark contribute to the calculation of their Australian Tertiary Admission Rank (ATAR).

Students who have completed the Primary Industries (240 indicative hours) course are eligible to sit for the Primary Industries HSC examination.

Students who want to sit for the Primary Industries HSC examination must be entered for both the Primary Industries course and the Primary Industries examination on *Schools Online (Administration)*.

The Primary Industries HSC examination is based on the HSC Content (refer to [Section 3 of the Syllabus](#)) and employability skills for the Certificate II qualifications (refer to the [Employability Skills in Primary Industries](#) document).

The Primary Industries HSC examination is a written exam independent of the competency-based assessment undertaken during the course and has no impact on student eligibility for the *Certificate III in Rural Operations (AHC32810)*.

HSC examination specifications

The HSC examination specifications, which describe the format of the Primary Industries HSC examination, are contained in the [Assessment and Reporting in Primary Industries Stage 6](#) document.

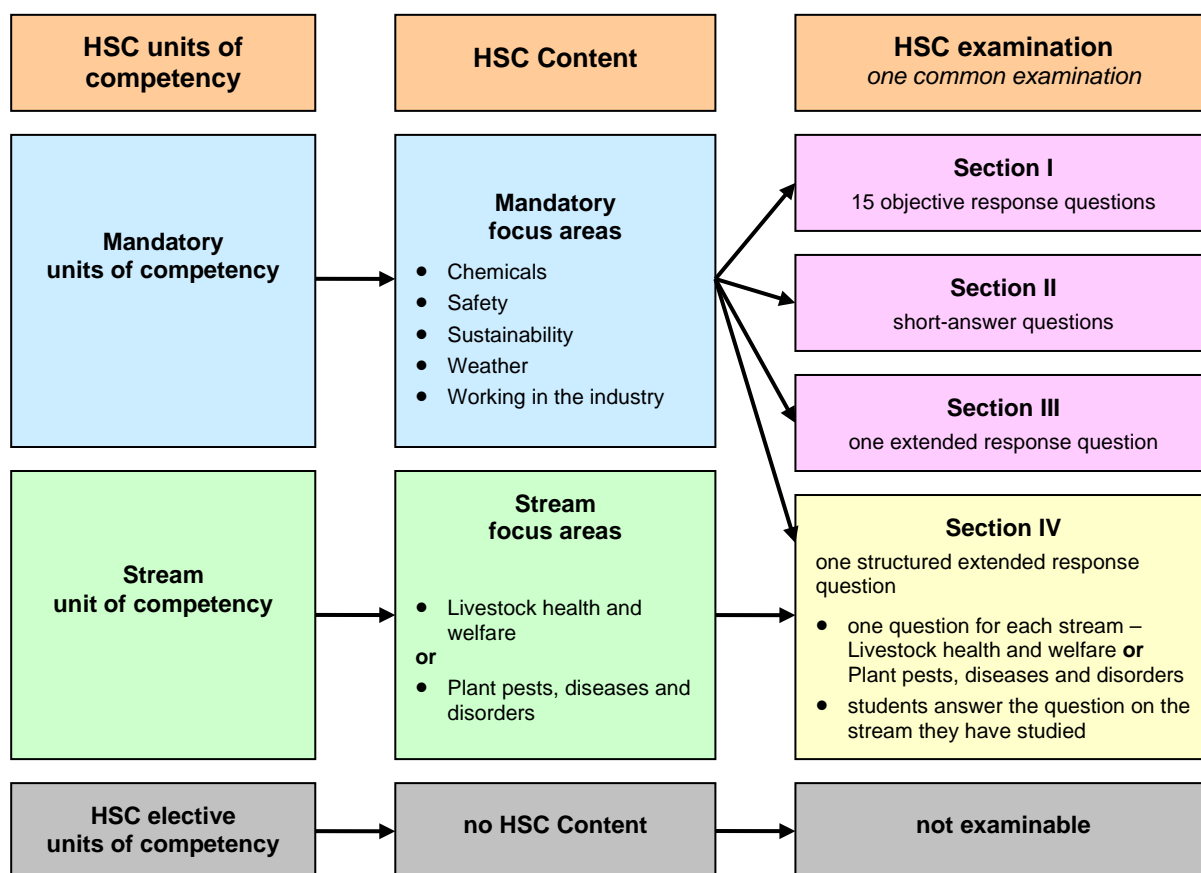

The Primary Industries HSC examination will consist of a 2-hour written paper. The paper will consist of four sections:

- Section I – objective response questions to the value of 15 marks
- Section II – short-answer questions to the value of 35 marks
- Section III – one extended response question to the value of 15 marks
- Section IV – two structured extended response questions (one for each of the stream focus areas: Livestock health and welfare or Plant pests, diseases and disorders) each to the value of 15 marks. Candidates will be required to answer the question on the stream they have studied.

The Primary Industries HSC examination is based on the HSC Content (focus areas) and employability skills for the Certificate II qualifications:

- Sections I, II and III are based on the mandatory focus areas
- Section IV is based on the stream focus areas and can also draw from the mandatory focus areas.

Relationship of the Primary Industries (240 indicative hours) course structure to the HSC examination

Status of units of competency for the Primary Industries HSC courses and Certificate III in Rural Operations

To achieve *Certificate III in Rural Operations (AHC32810)* the AHC10 Training Package requires students to achieve 16 units of competency:

- 2 core units of competency
- 14 elective units of competency.

To achieve Certificate III in Rural Operations as a part of the HSC, students will generally do the following HSC VET courses:

- Primary Industries (240 indicative hours)
- Primary Industries Specialisation Study (120 indicative hours).

To meet HSC course requirements, students completing the Primary Industries (240 indicative hours) course must undertake **five mandatory units of competency** and **one stream unit of competency** plus HSC elective units of competency to bring course total to a minimum of 240 HSC indicative hours.

Students who are also completing the Primary Industries Specialisation Study (120 indicative hours) course must undertake an additional 120 HSC indicative hours of units of competency.

Status in Primary Industries Curriculum Framework	HSC indicative hours	Unit code	Unit title	Certificate III in Rural Operations <i>2 core & 14 electives</i> ▪ <i>min 7 electives from Cert III in AHC10</i> ▪ <i>max 7 'other' electives in Cert II &/or III</i>
mandatory	20	AHCCHM303A	Prepare and apply chemicals	elective Cert III AHC10
mandatory	25	AHCOHS301A	Contribute to OHS processes	core
mandatory	20	AHCWRK302A	Monitor weather conditions	elective Cert III AHC10
mandatory	20	AHCWRK204A	Work effectively in the industry	other elective
mandatory	25	AHCWRK313A	Implement and monitor environmentally sustainable work practices	core
Livestock health and welfare stream or Plant pests, diseases and disorders stream	30	AHCLSK309A	Implement animal health control programs	elective Cert III AHC10
	25	AHCPMG302A	Control plant pests, diseases and disorders	elective Cert III AHC10
sub-total HSC indicative hours – mandatory and stream units of competency	135–140			

Primary Industries Curriculum Framework – Certificate III in Rural Operations

Students undertaking the Primary Industries (240 indicative hours) plus the Primary Industries Specialisation Study (120 indicative hours) course with the **Livestock health and welfare stream** must undertake an additional **220 HSC indicative hours** of units of competency to meet the HSC course requirements. These must include **10 units of competency** that are elective for the qualification to achieve *Certificate III in Rural Operations (AHC32810)*:

- minimum **4 more** electives must come from Certificate III in AHC10
- minimum **6 more** electives must come from units aligned to Certificates II or III or IV from up to three (3) other currently endorsed training packages or accredited courses. Selected units must be relevant to job outcomes in AgriFood industries.

Students undertaking the Primary Industries (240 indicative hours) plus the Primary Industries Specialisation Study (120 indicative hours) course with the **Plant pests, diseases and disorders stream** must undertake an additional **225 HSC indicative hours** of units of competency to meet the HSC course requirements. These must include **10 units of competency** that are elective for the qualification to achieve *Certificate III in Rural Operations (AHC32810)*:

- minimum **4 more** electives must come from Certificate III in AHC10
- minimum **6 more** electives must come from units aligned to Certificates II or III or IV from up to three (3) other currently endorsed training packages or accredited courses. Selected units must be relevant to job outcomes in AgriFood industries.

Minimum requirements for Certificate III in Rural Operations (AHC32810)

The following pages outline the qualification packaging rules for the AQF VET qualification AHC32810. This information is reproduced directly from the *Agriculture, Horticulture and Conservation and Land Management Training Package (AHC10)*. It is included so that the minimum requirements for achieving the industry qualification are clear. Students who meet these requirements will be eligible for the relevant AQF VET Certificate, whether or not they have met the additional requirements of the HSC course.

A Statement of Attainment will be issued for achievement of single or multiple units of competency. At a later date, a person can undertake further skill development or training and be assessed against additional competencies until they have achieved all the competencies required for an AQF VET qualification. RTOs must recognise and give credit for the competencies recorded on a Statement of Attainment.

Please note: Only the shaded units of competency are available in the Primary Industries Curriculum Framework. HSC course requirements are outlined in [Section 2 of the Syllabus](#).

AHC32810 Certificate III in Rural Operations

Description

This qualification provides an occupational outcome in agriculture, horticulture and conservation and land management and at least one, and up to three, other related industries.

Depending on the units selected, individuals will be able to seek employment not only in rural industries but also other industry sectors, such as local government, tourism, hospitality, transport, construction, information technology and metals.
