SUMMARY OF UNITS OF COMPETENCY

UNITS OF COMPETENCY

120 and 240 indicative hour course

RTC2209A	Install, maintain and repair fencing
RTC2401A	Treat weeds
RTC2701A	Follow OHS procedures
RTC2702A	Observe environmental work practices
RTC2704A	Provide basic first aid
RTC2705A	Work effectively in the industry
RTC2706A	Apply chemicals under supervision
RTC2801A	Participate in workplace communications
RTE2503A	Observe and report on weather
RTC2210A	Maintain properties and structures
RTC2301A	Undertake operational maintenance of machinery
RTC2307A	Operate machinery and equipment
RTC2309A	Operate tractors
RTD2202A	Conduct erosion and sediment control activities
RTD2313A	Clean machinery of plant, animal and soil material
RTD2803A	Observe and report plants and/or animals
RTE2201A	Carry out basic electric fencing operations
RTE2308A	Operate ride-on vehicles
RTE2603A	Lay irrigation and/or drainage pipes
RTE2804A	Provide information on products and services
RTE2902A	Collect and record production data
RTE1105A	Undertake basic shearing and crutching
RTE2110A	Maintain livestock water supplies
RTE2113A	Monitor livestock to parturition
RTE2114A	Monitor water supplies
RTE2115A	Muster and move livestock
RTE2117A	Pen sheep
RTE2118A	Handle livestock using basic techniques
RTE2124A	Carry out birthing duties
RTE2128A	Provide feed for livestock
RTE2134A	Assist with feeding in an intensive production system
RTE2136A	Load and unload livestock
RTE2144A	Carry out regular livestock observation

RTE2216A	Assist in preparing for shearing and crutching
RTE3133A	Prepare livestock for competition
RTC2012A	Plant trees and shrubs
RTC2016A	Recognise plants
RTC2026A	Undertake propagation activities
RTC2404A	Treat plant pests, diseases and disorders
RTD2004A	Collect, prepare and preserve plant specimens
RTF2013A	Pot-on plants
RTF2014A	Prepare and maintain plant displays
RTF2017A	Prune shrubs and small trees
RTF2024A	Tend nursery plants
RTF2025A	Transplant small trees
RTF2504A	Determine basic properties of soil/growing media
RTE2010A	Establish horticultural crops
RTE2011A	Assist agricultural crop establishment
RTE2021A	Support horticultural crop harvesting
RTE2029A	Assist agricultural crop maintenance
RTE2030A	Assist agricultural crop harvesting

Additional units for the 120 and 240 indicative hour course

FPIFGM162A	Collect, treat and store seed
RTD2022A	Carry out natural area restoration works
RTD2126A	Recognise animals
RTD2206A	Install aggregate paths
RTD2501A	Maintain cultural places
RTD2502A	Maintain wildlife habitat refuges

Specialisation Study

RTC2306A	Operate vehicles
RTD2312A	Inspect machinery for plant, animal and soil material
RTF2001A	Apply a range of treatments to trees
RTF2008A	Maintain indoor plants
RTF2204A	Construct low-profile timber or modular retaining walls
RTF2208A	Lay paving
RTF2215A	Assist with landscape construction work
RTE1106A	Shear sheep to novice level
RTE2003A	Carry out postharvest operations
RTE2006A	Carry out canopy maintenance
RTE2018A	Regulate crops
RTE2028A	Undertake field budding and grafting
RTE2102A	Brood poultry
RTE2103A	Carry out milking shed routines
RTE2104A	Carry out regular horse observation
RTE2106A	Care for and train working dogs
RTE2107A	Crutch sheep
RTE2109A	Incubate eggs
RTE2111A	Identify and mark livestock
RTE2112A	Milk livestock

RTE2119A	Perform board duties
RTE2120A	Assist with pressing wool
RTE2121A	Provide daily care for horses
RTE2129A	Move and handle pigs
RTE2130A	Ride and care for horses and equipment
RTE2131A	Care for health and welfare of livestock
RTE2138A	Shear goats
RTE2140A	Maintain health and welfare of poultry
RTE2141A	Set up shed for placement of day-old chickens
RTE2142A	Collect and pack eggs for human consumption
RTE2145A	Care for weaner and grower pigs
RTE2149A	Shear sheep to improver level
RTE2150A	Maintain intensive production growing environments
RTE2205A	Fabricate and repair metal or plastic structures
RTE2212A	Prepare grain storages
RTE2214A	Clean out intensive production sheds
RTE2302A	Grind combs and cutters for machine shearing
RTE2310A	Prepare handpiece and downtube for machine shearing
RTE2314A	Mechanically test milking machines
RTE2601A	Assist with the operation of gravity fed irrigation
RTE2602A	Assist with the operation of pressurised irrigation
RTE2604A	Maintain drainage systems
RTE2605A	Maintain gravity-fed irrigation systems
RTE2606A	Maintain pressurised irrigation systems
RTE2707A	Follow site quarantine procedures
RTE2901A	Observe enterprise quality assurance procedures
FDFWGGHPVB	Hand prune vines
FDFWGGMVTB	Install and maintain vine trellis
FDFWGGPGHB	Pick grapes by hand
FDFWGGPVHB	Plant vines by hand
FDFWGGTVB	Train vines
FDFWGGVCB	Take vine cuttings
Extension	
RTC3209A	Plan and construct conventional fencing
RTC3310A	Operate specialised machinery and equipment
RTC3401A	Control weeds
RTC3404A	Control plant pests, diseases and disorders
RTC3701A	Respond to emergencies
RTD3507A	Undertake sampling and testing of water
RTE3006A	Establish pastures and crops for livestock production
RTE3009A	Undertake agricultural crop harvesting activities
RTE3022A	Undertake agricultural crop maintenance activities
RTE3024A	Undertake preparation of land for agricultural crop production
RTE3029A	Establish agricultural crops
RTE3030A	Harvest horticultural crops mechanically
RTE3037A	Save, prepare and store agricultural seed

RTE3103A	Apply quality assurance procedures in wool preparation
RTE3107A	Carry out post-shearing procedures
RTE3108A	Class fleece wool
RTE3111A	Appraise wool using industry descriptions
RTE3113A	Identify and draft livestock
RTE3114A	Implement feeding plans for livestock
RTE3117A	Co-ordinate milking operations
RTE3118A	Implement feeding plans for intensive production
RTE3120A	Prepare facilities for shearing and crutching
RTE3122A	Prepare livestock for shearing
RTE3126A	Remove and facilitate reuse of effluent and manure from an intensive production system
RTE3136A	Comply with industry animal welfare requirements
RTE3141A	Prepare fleece wool for classing
RTE3142A	Prepare skirtings and oddments
RTE3143A	Monitor intensive livestock production growing environments
RTE3145A	Press wool
RTE3148A	Assess conformation of horses
RTE3210A	Plan and construct an electric fence
RTE3304A	Maintain and service shearing handpieces
RTE3313A	Monitor and provide advice on cleaning milking machines
RTE3317A	Carry out minor service of milking equipment
RTE3318A	Prepare combs and cutters for machine shearing
RTE3506A	Monitor weather conditions
RTE3604A	Troubleshoot drainage systems
RTE3605A	Troubleshoot irrigation systems
RTE3606A	Measure drainage system performance
RTE3607A	Measure irrigation delivery system performance
RTE3609A	Operate fertigation equipment
RTE3610A	Operate gravity fed irrigation systems
RTE3612A	Implement a maintenance program for an irrigation system
RTE3713A	Carry out workplace OHS procedures
RTE3714A	Maintain and monitor environmental work practices
RTE3901A	Comply with industry quality assurance requirements
RTE3904A	Keep records for a primary production business
RTE3907A	Use hand held e-business tools
RTE3908A	Maintain and monitor feed stocks
RTF3012A	Implement a plant nutrition program
RTF3014A	Implement a propagation plan
RTF3033A	Implement a maintenance program for hydroponic systems
RTF3215A	Install hydroponic systems
RTF3503A	Sample soils and analyse results
RTF3510A	Design and prepare growing media

APPENDIX - UNIT OF COMPETENCY RECORD SHEET (TEMPLATE)

INFORMATION FOR TEACHERS AND ASSESSORS

Introduction

This competency record forms a permanent record of all units and elements of competency achieved by students undertaking Primary Industries courses in the Primary Industries Curriculum Framework as part of their Higher School Certificate (HSC). These courses are based on the Conservation and Land Management Training Package (RTD02), Amenity Horticulture Training Package (RTF03), Rural Production Training Package (RTE03) and the Food Processing Industry Training Package (FDF03) and provide students with the opportunity to gain Australian Qualifications Framework (AQF) qualifications in the area of primary industries.

This document should be read in conjunction with Part A and Part B of the *Primary Industries Curriculum Framework Stage 6 Syllabus* (Board of Studies NSW, 2002).

Part A of the syllabus contains general advice about the Primary Industries Curriculum Framework and describes course structures and requirements, including work placement.

Primary Industries Part B of the syllabus contains the text of units of competency from the Training Packages that have been included in the 240-hour course in the framework. Each unit of competency is accompanied by HSC requirements and advice.

The competency record is intended:

- to assist teachers and trainers in the implementation and assessment of courses within the framework
- to assist Registered Training Organisations (RTOs) in record keeping
- to provide students with a document which may be of assistance when seeking employment or articulation to further training.

The competency record contains a series of forms which may be used when assessing, recording and documenting that a student has demonstrated competencies required for a particular HSC course and/or AQF qualification in the area of primary industries.

The competency record should be verified by the RTO as a true and accurate record of units of competency achieved.

Note that the use of this competency record is not mandatory. RTOs may choose to use competency records designed in-house or by industry bodies.

How to use the Competency Record

The competency record contains the following pro formas:

- forms for recording student, school, RTO and work placement employer details
- a record sheet for each of the units of competency included in the Primary Industries Curriculum Framework
- a summary list of units of competency
- a verification statement.

It is suggested that a competency record booklet be compiled for each student consisting of:

- cover page and publication details
- information for students
- student, school, RTO and employer details forms
- verification form
- summary sheet for the relevant AQF qualification, ie AQF Certificate II in Conservation and Land Management, Certificate II in Agriculture, Certificate II in Horticulture or Certificate II in Rural Operations
- a record sheet for each unit of competency included in the course which the student is undertaking.

The combination of units of competency undertaken by a student or class group will depend on the structure of the specific course selected from the Primary Industries Curriculum Framework. These are shown in Part A of the *Primary Industries Curriculum Framework Stage 6 Syllabus*.

When a student is assessed as competent against an element of competency, the assessor needs to sign off the element of competency on the record sheet for the relevant unit.

When a student has been assessed as competent for all elements in a unit, the unit verification should be completed and signed. The unit should also be signed off on the summary of units of competency for the relevant qualification.

The verification statement, including the name of the AQF Certificate or Statement of Attainment to be awarded, should be completed and signed off by the RTO.

The completed competency record may be used for detailing student achievement for RTO recording and reporting purposes. The completed competency record should be retained by the student.

Please note that competency records need not be forwarded to the Office of the Board of Studies.

Recording Student Competency

Qualified assessors should sign off the elements of competency successfully demonstrated consistent with the evidence requirements and performance criteria shown in Part B of the *Primary Industries Curriculum Framework Stage 6 Syllabus*. Only successful attempts should be recorded.

It is recommended that assessors devise integrated assessment events that cover a number of elements of competency within and across a number of units of competency.

It is up to the teacher/trainer, in consultation with any other assessors, participating employers and the student to decide whether particular units/elements of competency are most appropriately assessed in the workplace, classroom or other location.

Competency-based assessment is based on a range of evidence that meets the requirements of the performance criteria and assessment guidelines. Students may submit evidence in various forms; there is no need for them to duplicate tasks to demonstrate skill.

Note that for a student to be assessed as competent

- for an element of competency: all of the performance criteria must be satisfied
- for a unit of competency: all of the elements of the unit must be demonstrated.

Students who do not achieve competency in an element/unit of competency at the first assessment attempt must be allowed other opportunities to demonstrate competency. Elements of competency satisfactorily demonstrated within partially achieved units of competency will not be recognised towards the achievement of a qualification or when seeking advanced standing, ie AQF accreditation is available only for whole units of competency.

Students and Competency Records

Students should be made aware that it is their responsibility to ensure that their competency record is kept up-to-date as a record of their achievement in the course. They should be encouraged to use their competency record when seeking employment and be advised it may be required as evidence if they are subsequently seeking advanced standing in VET courses provided through TAFE or other RTOs or, in some cases, in university courses.

Context of Assessment for Units of Competency

Due to the large number of common and generic units of competency in the Conservation and Land Management Training Package (RTD02), Amenity Horticulture Training Package (RTF03) and the Rural Production Training Package (RTE03), there may be a need to indicate the context in which the unit of competency has been assessed.

Units of competency relating to general categories such as crops, livestock, machinery, equipment or vehicles may apply to a range of different contexts. For example crops may include cotton, grains or sugar cane. Livestock may include cattle, sheep, horses or pigs. Machinery, equipment or vehicles may be assessed using a particular type of specialist equipment or a certain type of tractor.

Where the unit of competency is assessed within the context of a particular crop, animal or piece of equipment/machinery, the Registered Training Organisation may make a notation in the competency record book to indicate the context in which the unit was achieved.

Within this competency record, common or generic units of competency have a space provided for this purpose.

PRIMARY INDUSTRIES COMPETENCY RECORD

STUDENT INFORMATION

This competency record provides a permanent record of your achievement in Higher School Certificate courses in the Primary Industries Curriculum Framework. It will record the units of competency you have achieved to complete Higher School Certificate (HSC) and Australian Qualification Framework (AQF) requirements.

For these reasons it is important that you make your competency record available to your assessor to record your achievement of competency and that you keep your competency record safe and in good condition. It may also assist you when you are seeking employment or applying for advanced standing in further education and training.

APPENDIX – UNIT OF COMPETENCY RECORD SHEET (TEMPLATE)

This template is provided so that other units of competency for which a student has been assessed as competent may be added to the student's competency record.

This may occur in the following circumstances:

- a Board Endorsed Course containing units of competency which are additional to those included in the industry curriculum framework has been approved by the Board
- a student has demonstrated competency for a unit of competency from the training package which is not included in the industry curriculum framework and does not contribute to the student's HSC course but which may contribute to AQF outcomes in this industry area
- a student has demonstrated competency in a unit of competency from another training package which does not contribute to the student's HSC course but which — under the rules for determining qualifications set out in this training package — may contribute to AQF outcomes in this industry area.

Under these circumstances, a record sheet for the unit may be completed provided that:

- the unit is within the RTO's scope of registration and
- the unit has been assessed according to training package requirements.
