Introduction to the Automotive Curriculum Framework

The Automotive Curriculum Framework and Certificate II in Automotive Vocational Preparation

Status of units of competency for the Automotive HSC course and Certificate II in Automotive Vocational Preparation (Vehicle Body stream)

Automotive – AUR20716 Certificate II in Automotive Vocational Preparation

The Automotive Curriculum Framework includes the following documentation:
- the syllabus
- associated documents
- support materials.

All of the Framework documentation is available on the Board of Studies, Teaching and Educational Standards NSW (BOSTES) website at www.boardofstudies.nsw.edu.au/syllabus_hsc/automotive.html.

This document, Automotive – AUR20716 Certificate II in Automotive Vocational Preparation should be read in conjunction with the Automotive Curriculum Framework Stage 6 Syllabus.

Introduction to the Automotive Curriculum Framework

The Automotive Curriculum Framework is a Board Developed HSC syllabus. It is based on qualifications and units of competency contained in the nationally endorsed AUR Automotive Retail, Service and Repair Training Package and includes pathways to:
- AUR20716 Certificate II in Automotive Vocational Preparation
- AUR20516 Certificate II in Automotive Servicing Technology
- Statement of Attainment towards AUR30316 Certificate III in Automotive Electrical Technology
- Statement of Attainment towards AUR30616 Certificate III in Light Vehicle Mechanical Technology.

The Automotive Curriculum Framework contains the following HSC VET courses (detailed in Section 2 of the Syllabus):
- Automotive (120 indicative hours)
- Automotive (240 indicative hours)
- Automotive Specialisation Study (60 or 120 indicative hours).

HSC VET courses have dual accreditation. Students can gain credit towards:
- the NSW Higher School Certificate (HSC)
- an AQF VET qualification – eg Certificate II in Automotive Vocational Preparation.

As a result of the dual accreditation, HSC VET courses are governed by two sets of rules:
- HSC unit credit requirements determined by:
  - HSC course requirements (detailed in Section 2 of the Syllabus)
  - the requirements for satisfactory course completion – outlined on the BOSTES Assessment Certification Examination (ACE) website
• AQF VET qualification requirements specified in:
   the qualification packaging rules for Certificate II in Automotive Vocational
    Preparation – defined in the AUR Automotive Retail, Service and Repair Training
    Package
   Registered Training Organisation (RTO) policies.

It is important to note that the rules and structure of HSC VET courses are not identical to the qualification packaging rules.

RTOs offering training programs for the delivery and assessment of the Automotive HSC VET courses must meet the requirements of the VET Quality Framework, the AUR Automotive Retail, Service and Repair Training Package and the HSC course.

The Automotive Curriculum Framework and Certificate II in Automotive Vocational Preparation

The Automotive Retail, Service and Repair Training Package qualification packaging rules for AUR20716 Certificate II in Automotive Vocational Preparation require the achievement of:
• 7 core units of competency
• 5 elective units of competency (minimum 3 electives listed).

To achieve AUR20716 Certificate II in Automotive Vocational Preparation as part of the HSC, students will complete the following HSC VET course from the Automotive Curriculum Framework:
• Automotive (240 indicative hours) – 4 HSC credit units.

To be eligible for the award of the HSC, students must satisfactorily complete a pattern of study that includes 22 HSC credit units (refer to the BOSTES Assessment Certification Examination (ACE) website for further details).
# Automotive HSC course requirements for Certificate II in Automotive Vocational Preparation (with the HSC Vehicle Body stream)

Refer to [Section 2 of the Syllabus](#) and [qualification packaging rules](#) for further details.

<tr>
<td>minimum of 70 hours of mandatory work placement</td>
<td>the remaining core unit of competency for the qualification + three more elective units of competency (including at least one listed elective) for the qualification</td>
</tr>
</tbody>
</table>

## Work placement

Work placement is a mandatory HSC VET course requirement with minimum hours assigned to each HSC VET course. Non-completion of work placement means the student has not met the HSC VET course requirements and cannot count the HSC credit units for the course towards the award of their HSC. They would still be credentialled for the AQF VET qualification.

Work placement is to be undertaken in an authentic automotive work environment appropriate to the qualification being undertaken.
The minimum work placement requirement for students undertaking AUR20716 Certificate II in Automotive Vocational Preparation through the 240 indicative hours course is 70 hours.

For units of competency that must be assessed in an automotive work environment, work placement provides an opportunity to collect evidence required for a student to be deemed competent.

Recognition of Prior Learning (RPL) may be granted for mandatory work placement requirements. Students’ outside employment (ie not under the auspices of the school) may be recognised towards the requirement for work placement in a VET course (ACE 8051 – Assessment Certification Examination (ACE) website).

Refer to the Work Placement in Automotive document for further information.

HSC Content

The HSC Content for this industry curriculum framework is organised into focus areas. Each focus area prescribes the scope of learning for the HSC. This is drawn from the associated units of competency (outlined in Table 1 on the next page).

Students undertaking the Automotive (240 indicative hours) course must address:

- all the mandatory focus areas:
  - Safety
  - Sustainability
  - Troubleshooting and problem-solving
  - Working in the automotive industry and workplace
- one stream focus area:
  - Vehicle Body.

The content description for each focus area is detailed in Section 3 of the Syllabus.

The HSC examination in Automotive is based on the HSC Content (focus areas) in this Framework (refer to Section 4 of the Syllabus).

**HSC examination**

The Automotive Curriculum Framework includes an HSC examination which provides the opportunity for students to have their HSC mark contribute to the calculation of their Australian Tertiary Admission Rank (ATAR).

The Automotive HSC examination can contribute up to two units towards the calculation of a student’s ATAR.

Students who have completed the Automotive (240 indicative hours) course are eligible to sit for the Automotive HSC examination.

Students who want to sit for the Automotive HSC examination must be entered for both the Automotive (240 indicative hours) course and the Automotive examination on Schools Online (Administration). It is the responsibility of the home school to enter students into VET Framework courses and VET HSC examinations when the course is studied at a TAFE NSW institute or private provider.

Students will sit for the Automotive HSC examination at the same HSC examination centre where they sit all of their other written HSC examinations (usually at their home school).
The HSC examination is independent of the competency-based assessment undertaken during the course and has no impact on student eligibility for AUR20716 Certificate II in Automotive Vocational Preparation.

**HSC examination specifications**

The HSC examination specifications, which describe the format of the external HSC examination, are contained in the *Assessment and Reporting in Automotive Stage 6* document.

There will be two separate written papers, one for each stream. Candidates will be required to complete the paper based on the stream they have studied (Vehicle Body).

The Automotive HSC examination will consist of a two-hour written paper. The paper will consist of four sections:

- **Section I**
  - objective response questions to the value of 15 marks
  - 5 questions will be based on the mandatory focus areas, and will be the same for both papers
  - 10 questions will be specific to the stream focus area
- **Section II**
  - short-answer questions to the value of 35 marks
  - 15 marks will be allocated to questions based on the mandatory focus areas, and will be the same for both papers
  - 20 marks will be allocated to questions specific to the stream focus area
- **Section III**
  - there will be one structured extended response question to the value of 15 marks, based on the stream focus area and can also draw from the mandatory focus areas
- **Section IV**
  - there will be one extended response question to the value of 15 marks, based on the mandatory focus areas, and will be the same for both papers.

When entering a student on *Schools Online (Administration)* for the Automotive HSC examination, the school will enter them into the HSC examination number based on the stream focus area they will study (refer to Section 2 of the *Automotive Curriculum Framework Stage 6 Syllabus*). This determines the written paper the student will undertake in the HSC examination.
Relationship of the Automotive (240 indicative hours) course structure to the HSC examination

  - **not examinable**
**Status of units of competency for the Automotive HSC course and Certificate II in Automotive Vocational Preparation (Vehicle Body stream)**

To achieve AUR20716 Certificate II in Automotive Vocational Preparation from the Automotive Retail, Service and Repair Training Package requires students to achieve 12 units of competency:
- 7 core units of competency
- 5 elective units of competency.

To achieve AUR20716 Certificate II in Automotive Vocational Preparation as a part of the HSC, students will do the HSC VET Automotive (240 indicative hours) course.

To meet HSC course requirements, students completing the Automotive (240 indicative hours) course with a Vehicle Body focus must undertake four mandatory and four Vehicle Body stream associated units of competency (six core and two listed electives for Certificate II in Automotive Vocational Preparation) plus a minimum of 85 HSC indicative hours of HSC elective units of competency.

<table>

</tr>
</tbody>
</table>

For the HSC, students must undertake a further **70 HSC indicative hours** of units of competency to meet the requirements of the Automotive (240 indicative hours) course.

To achieve AUR20716 Certificate II in Automotive Vocational Preparation, this needs to include **three more units of competency that are elective** for the qualification **including at least one listed elective**.
