### Training Package
Retail Services (SIR07)

### Unit title
Accept prescriptions and deliver medicine

### Unit code
SIRPDIS001A

### Competency field
Dispensary

### Sector
Community Pharmacy

### HSC Indicative Hours
10

### HSC Requirements and Advice

### Unit descriptor
This unit covers skills and knowledge required to accept prescriptions from the customer, confirm prescription information, communicate information to a pharmacist and deliver dispensed medicines to customers in a community pharmacy.

### Prerequisite units
SIRPPKS001A Support the sale of pharmacy and pharmacist-only medicines

### Application of the unit
This unit may apply to both front of store and dispensary work roles and is carried out under direction of a pharmacist.

### Employability Skills
The required outcomes described in this unit contain applicable facets of Employability Skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying Employability Skill requirements.

### Evidence Guide
The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

| Evidence of the following is essential:  
- applies pharmacy protocols and procedures when accepting and delivering prescriptions, including:  
  - collecting the required information from customers  
  - maintaining customer and prescription data  
  - identifying situations or requests requiring referral to a pharmacist and refer appropriately  
  - delivering medicine to customers  
  - ensuring the customer has access to a pharmacist for advice  
- respects and protects customer privacy | Assessment must ensure:  
- demonstration of accepting prescriptions and delivering medicine, over sufficient time to demonstrate handling of a range of contingencies  
- interaction with customers, including a range of customers typical of the customer base  
- delivery of a range of prescription medicine  
- performance is observed by the assessor or the technical expert working in partnership with the assessor  
- assessment must be undertaken in a real workplace environment that meets | A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:  
- observation of the candidate in the workplace accepting prescriptions and delivering medicine to a range of customers  
- written or verbal questioning to assess knowledge and understanding  
- role plays to confirm communication skills to meet diverse customer requirements  
- completing workplace documentation relevant to accepting prescriptions. | Employability Skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts. Employability Skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification. |
