Unit title | Process and monitor event registrations
---|---
Unit code | SITXEVT003B
Competency field | Event Management
Sector | Cross Sector

**Unit descriptor**
This unit describes the performance outcomes, skills and knowledge required to process and monitor registration for any type of event. No licensing, legislative, regulatory or certificate requirements apply to this unit at the time of endorsement.

**Prerequisite units**
Nil

**Application of the unit**
Events are diverse in nature and are organised and administered in many different industry contexts. The underpinning principles of event management are consistent across these contexts and this unit is designed to apply to a broad range of events. It has particular relevance in the creative, hospitality, sport and tourism sectors within venues, event management organisations and professional conference organisers.

Registration processing and monitoring requires underpinning clerical and administrative skills combined with knowledge of specific event administration procedures. This function is undertaken by individuals working according to broader event management procedures and under guidance from others.

An individual achieving this unit would be expected to have a broad understanding of general event administration processes and principles to enable the transfer of skills across a range of different event types.

**Employability skills**
The required outcomes described in this unit of competency contain applicable facets of employability skills. The Employability Skills Summary of the qualification in which this unit is packaged will assist in identifying employability skill requirements.

**Evidence Guide**
The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**
Evidence of the following is essential:
- ability to accurately process registration information and to produce accurate attendance reports and related documentation
- knowledge of administration systems and procedures for recording and reporting

**Context of and specific resources for assessment**
Assessment must ensure:
- project or work activities are conducted over a period of time to allow the candidate to demonstrate registration processing and monitoring for an event
- use of industry-current systems and technology.

**Methods of assessment**
A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:
- review of documentation and reports prepared by the candidate in preparation for an event

**Assessing employability skills**
Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.
